

Clayton County Historic Preservation Commission

March 8, 2024

9:00 am

Clayton County Development Office 200 E. Bridge St. Elkader

Call Meeting to Order

Approve agenda

Review and approve meeting minutes from the previous meeting

Financial report

I don't believe there are any changes to report from last month.

Old business

Cardinal-Hickory Transmission Line update Chris

Update on other projects

New Business

Stone Structure website structure updates Ellen

CLG report completed which includes yearly in person review with County Supervisors.

May is preservation month, do we want to plan an activity?

Newspaper contacted about transmission line and about doing an article on the three CLG activities for preservation month

New tower Section 106 applications

One application is to replace the current antennas on the Gutenberg water tower. I signed off on that one.

The next tower is to be located on the edge of a farm field near McGregor on Eagle Drive. This 240 foot tower is being constructed for Clayton County Safety and Emergency communications. The archaeologist was to survey the site on February 27 to do some soil digs. We visited and he's very aware of possible mounds in the area. There is a public notice in the paper

Next meeting April 12, 2024
